

EDUCATION (TRAINING AND ADULT EDUCATION) INDUSTRY TRANSFORMATION MAP

The Training and Adult Education industry supports overall industry transformation, enabling Singaporeans to stay relevant. By ensuring it is both high quality and responsive, it addresses the future needs of businesses and individuals alike.

FUTURE ECONOMY

VISION

To build a high-quality and responsive Training and Adult Education (TAE) sector to support industry transformation and good employment outcomes for Singaporeans in the economy

PILLARS OF TRANSFORMATION

JOB & SKILLS

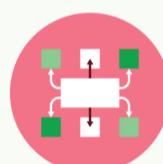

Improve the career and skills pathways available to Adult Educators

Raise the quality and capabilities of Adult Educators, through professionalization and recognition

PRODUCTIVITY

Improve individuals' access to information on training choices and quality through MySkillsFuture Portal

Enhance operational efficiency of training providers (e.g. training management solutions and centralised collection of trainees' feedback)

INNOVATION

Integrate training with business solutioning to support business performance and industry transformation

Equip enterprises with critical and emerging skills

Apply blended learning and technology in lessons

Roll out new pedagogical and modular curriculum, making learning more relevant and accessible

EQUIP YOURSELF FOR THE FUTURE...

Upskill and train the workforce:

EDUCATION (EARLY CHILDHOOD) INDUSTRY TRANSFORMATION MAP

Demand for quality early childhood services is rising due to more dual-income households and working grandparents, as well as growing awareness of the importance of early childhood development. The industry must adapt and change quickly to cater to this demand.

FUTURE
ECONOMY

VISION

To provide every child with a good start in life.

PILLARS OF TRANSFORMATION

JOB & SKILLS

Provide more pathways for mid-career professionals and back-to-work individuals to join

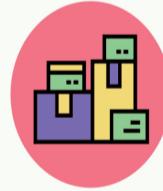

Strengthen career prospects for employees, e.g. professional development and skills-based remuneration

PRODUCTIVITY

Develop smart solutions to support early childhood professionals

Enable centres to purchase goods in bulk to better manage cost

Use technology to reduce administrative work

INNOVATION

Employ service models and arrangements to better meet preschool needs (e.g. Early Years Centres)

Pilot a more seamless transition from infant classes to toddler classes
